Update: [UN Imposes Sanctions Against North Korea, an Act of War](#)

As Joe Biden said, they had some 4 or 5 scenarios for an international generated crisis, they just have to see which one will suit better given the circumstances keep changing and not everything works exactly as they anticipated. They are pumping the North Korea story up once again !

It all seems to be in line with their plans according to Joe Biden ! After all he himself admits "[I am a Zionist, you don't have to be a jew to be a Zionist](#)". And he is right, what you have to do to be a Zionist is follow the [Protocols of the Elders of Zion](#). And in another post we will show you how he was involved with Justice Roberts and the whole decision on the constitutionality of Obamacare - it will blow your mind !

So what did Joe Biden Say ?

Lindsey Williams has shown over the last few years how the elite did not exactly get things follow the timeline of their initial schedule (for example only Syria delayed their plans roughly 1 year now), but be patient, they are trying really hard to get it done :)

A few quotes from what Biden said (it is not clear if he referred to 6 months into the first term, second term or before his term is over !):

"Mark my words, it will not be six months before the world tests Barack Obama like they did John Kennedy. The world is looking. We're about to elect a brilliant 47-year-old senator president of the United States of America. Remember I said it standing here if you don't remember anything else I said. Watch, we're gonna have an international crisis, a generated crisis, to test the mettle of this guy."

"I can give you at least four or five scenarios from where it might originate"

"And he's gonna need help. And the kind of help he's gonna need is, he's gonna need you - not financially to help him - we're gonna need you to use your influence, your influence within the community, to stand with him. Because it's not gonna be apparent initially, it's not gonna be apparent that we're right."

"Gird your loins, we're gonna win with your help, God willing, we're gonna win, but this is not gonna be an easy ride. This president, the next president, is gonna be left with the most significant task. It's like cleaning the Augean stables, man. This is more than just, this is more than – think about it, literally, think about it – this is more than just a capital crisis, this is more than just markets. This is a systemic problem we have with this economy."
