

# The Dragon of the Apocalypse

Categories : [Climate Change](#), [End Of Times](#), [Liberation Theology](#)

Date : November 14, 2013

The last book of the Bible, St John's Revelation (also known as the Apocalypse of St John), talks about unimaginable disasters to be occurring at the end of times. One of them has just happened in the Phillipines that was hit by the strongest typhoon ever recorded.

What is the world we currently live in looking like nowadays? Not too long ago we had the BP oil spill in the Gulf of Mexico and more recently the nuclear disaster at Fukushima, a crisis which is getting worse by the day despite the fact that mainstream media would like us to believe otherwise. Then we have earthquakes, tsunamis, widespread fires and floodings everywhere. And on top of it all we are on the verge of the biggest financial collapse in history, far greater and far more devastating than the 2008 financial crisis. Wars are (and have been) raging all over and entire nations are completely subdued and/or drowned in debt. This is a pretty dire picture.

Why is this all happening? Because God has turned His face away from us for our sins and the beast has been unleashed from the bottomless pit and is preparing to enslave us all.

In a previous article we showed how [communism was the red beast of the apocalypse and how it is to return in the West and destroy it](#). But how is this to be accomplished?

In the Book of Revelation Chapter 13, verses 11 through 15 we can read about another beast which fulfills all the work of the first beast we identified as being the Communism. So in other words this beast is the one that implements the communism which in itself is just an ideology.

11. And I beheld another beast coming up out of the earth; and he had two horns like a lamb, and he spake as a dragon.

12. And he exerciseth all the power of the first beast before him, and causeth the earth and them which dwell therein to worship the first beast, whose deadly wound was healed.

13. And he doeth great wonders, so that he maketh fire come down from heaven on the earth in the sight of men,

14. And deceiveth them that dwell on the earth by the means of those miracles which he had power to do in the sight of the beast; saying to them that dwell on the earth, that they should make an image to the beast, which had the wound by a sword, and did live.

15. And he had power to give life unto the image of the beast, that the image of the beast should both speak, and cause that as many as would not worship the image of the beast should be killed.

Of this other beast described in verse 12 we read that it looks like a lamb but speaks like a **dragon**, and therefore it is something that looks good on the surface but it is meant to deceive. Verse 4 of

the same Chapter 13 gives us a little more information about this dragon:

**4. And they worshipped the dragon which gave power unto the beast: and they worshipped the beast, saying, who is like unto the beast? who is able to make war with him?**

In other words the dragon empowers the beast and become one - a political system that implements communism and makes everyone bow down to its ideology. Of this beast we are told that is a very powerful and feared entity because nobody is able **to make war with him**. Verse 12 tells us that this dragon will subdue the entire earth and make it bow down to communism (the beast who's **deadly wound was healed** - we can see here the same idea - that of a beast that was and is not but will appear again - a beast who was wounded to death and people thought it dead but it rises again).

So the Book of Revelation is telling us that it is really the dragon of verse 11 that is the one in charge with "making it all happen", making the people of the earth accept communism. Verse 15 makes it even more clear that the first beast (communism) is just an image (an ideology) which is being brought to life by the dragon.

What could this dragon be?

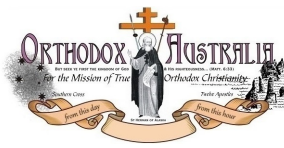

We saw in an older article that the communism was really [an experiment of the Fabian Society](#), of whom George Soros is an important member. It is very interesting that St John describes this beast as looking like a lamb but speaking like a dragon. When one looks at the Fabian Society's logo notices that it is nothing else but a wolf disguised like a lamb. Coincidence?

Not so much. There are other clues that link it to the dragon of the apocalypse. Upon close examination we notice that everything the [Fabian Society stands for is a universal socialist / communist regime](#). Another clue can be found in the famous Fabian Society Window, displayed in their most prestigious education institution, London School of Economics, which depicts a hot, red earth over a fire and being remolded by 2 people with hammers. In Fabian Society's vision, in order that they changed the world, they have to make it very hot by continuously pounding it.

The beast of communism today presents itself in a disguised form and ideas that can be easily identified in the Fabian Society's doctrine: sustainability (see UN's agenda 21), social justice etc etc. The link we provided above provides a lot of information about Fabian Society's communist philosophy. We are only going to point out a couple of paragraphs which may sound familiar to the readers of our site:

*Its early members deceptively called themselves "Christian Socialists"* (see our articles about Christian Communism)

*The first Habitat conference was held in 1974 and specifically identified private property ownership*

*as a threat to the peace and equality of the environment. It proposed to revolutionize the development of the land and cities of each country under strict "Soviet-style" environmental guidelines, called "Sustainable Development."*

It just happens that every now and then the mainstream media happens to call out a truth for what it is. For example here is what [The Australian](#) said the other day:

*Cabinet ministers have decided to reject any measures of "socialism masquerading as environmentalism" after meeting last week to consider a submission on the position the government would take to the Warsaw conference.*

It is worth noting that the former Australian Prime Minister, Giulia Gillard, the former leader of the Labour Party that introduced the carbon tax in Australia, is herself a [member of the same group](#).

It would become a much bigger article if we were to get into chemtrails, climate change, climate-gate scandal etc etc. That could be the topic of another article.

Without getting into how a typhoon like the recent one in the Philipines can happen (because for example former U.S. Secretary of Defense William Cohen admitted publicly - see for yourself directly on the [department's official website defense.gov](#) - that various entities in the world had the capability to engage *even in an eco- type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves*), let us focus our attention to how this event is being used to "remold" the earth! Here is what The Guardian, the respected publication which we referenced many times before (sic!), has to say:

[Typhoon Haiyan: what really alarms Filipinos is the rich world ignoring climate change](#)

In other words this typhoon is used as an excuse to further push the communist agenda.
