

# Chemtrails - The Secret War !

Categories : [Climate Change](#)

Date : January 4, 2015

**Scientist breaks silence, terrified about what he has helped create!**

*"Dr. Matthew Watson from Bristol University in the UK told the media recently that he's "terrified" by many of the geoengineering projects currently in the works to thwart man-made climate change, a phenomenon being hawked as an excuse for weather modification programs by many in mainstream science as a "threat to humanity."*
